

Save Time and Build Memories This Holiday Season. Hire a Caterer.

Save time and build memories this holiday season with your family.

There is joy in walking into your family's house and hearing the kids laughing and playing, the adults talking and playing cards, and the smell of turkey, ham, pies, and much more coming from the kitchen.

Many of us fail to recognize or take for granted the hours of prepping and cooking.

It can be exhausting cooking many meals for the people you love. As you have spent two days grocery shopping, cleaning, preparing, and cooking, you are missing precious time with your family.

On some holidays you wish they would skip your house, but other times you wouldn't want to miss another holiday with them.

Consider treating the cooks in your family or yourself to the gift of a caterer this holiday season!

Caterers Save Time

Time is a resource we can never get back. It is never refundable, so let's spend more time enjoying our family and less time running to the grocery store and standing in long lines.

For some people, I know you haven't done that in years! You use Instacart, of course. Despite this, we all know that Instacart shoppers leave items off the list from time to time, and they pick up the most unripe items that you need to use immediately. Therefore, you end up driving to the store anyway to get the item or items you need.

Hiring [Ava's Cuisine & Catering](#) eliminates the need for running to the grocery store when all the stores are packed or the online delivery wait time takes a while. It also eliminates the rest of the work of prepping, cooking, and cleaning.

You have the full ability to sit in the comfort of your home and customize your holiday meal for the whole family. This means more food options, therefore, the cousin who only likes BBQ chicken and is allergic to vegetables, the new girlfriend who only eats seafood, or the baby who only wants chicken nuggets and fries can have the meals they truly want to enjoy. Most importantly, you don't have to cook several different meals.

Caters Save Memories

Hiring a caterer allows more memories to be cherished and created.

When the planning and cleaning of the meal are eliminated, you can spend more time dancing with your grandparents who only have a few years left with them.

The family has more opportunities to enjoy the latest video games or virtual reality games together.

You have more opportunities to apologize and have heartfelt conversations as well as more time to remember family members who have passed away.

The possibilities for creating more memories with your loved ones are endless with [Ava's Cuisine & Catering](#).
